Vodacom Business
The future is exciting.
Ready?

Our Execution Strategy

Retail

IoT.nxt bridging the edge | Link

Key Clients/Segments:
Malls; Commercial Property Developers

Big hits: near term
Retail RFID; Retail Analytics, Smart Kitchen

Logistics & Fleet

Vodafone | IoT.nxt bridging the edge

Key Clients/Segments:
Public Sector; LE; SME; VGE; Industrial

Big hits: near term
Total Fleet Management (Asset, Process & People), Smart Warehousing

Smart City

mezzanine | IoT.nxt bridging the edge | Link

Key Clients/Segments:
Public Sector; LE; SME; VGE; Industrial

Big hits: near term
Public Safety; Smart Metering; SAMS, Intelligent Building – Energy Mngt

Industrial

IoT.nxt bridging the edge

Key Clients/Segments:
Mines; Heavy Industry

Big hits: near term
Mine Visibility; Performance Assurance ; Fuel Chain Optimisation, Smart Service Station

Health

mezzanine

Key Clients/Segments:
Private; Public; Hospitals; Pharmacies

Big hits: near term
Pathology Management (eLabs)

Enterprise Applications

Vodafone

Key Clients/Segments:
Private; Public; Hospitals; Pharmacies

Big hits: near term
Mobile ERP; Employee engagement; Digital visitor app; Time & Attendance

Education

Vodafone | mezzanine

Key Clients/Segments:
Public; Mines, Educational Institutions;

Big hits: near term
Smart Education; Virtual Learning

Agriculture

mezzanine

Key Clients/Segments:
Farmers; retailers; public sector

Big hits: near term
Precision Farming; Digi Farm

Connectivity

Vodafone

Key Clients/Segments:
Public Sector; LE; SME; VGE; Industrial

Big hits: near term
GDSP; IITC; NB-IoT on GDSP; Local Breakout

Platform

Vodafone

Key Clients/Segments:
Co-creations with Developers; top clients

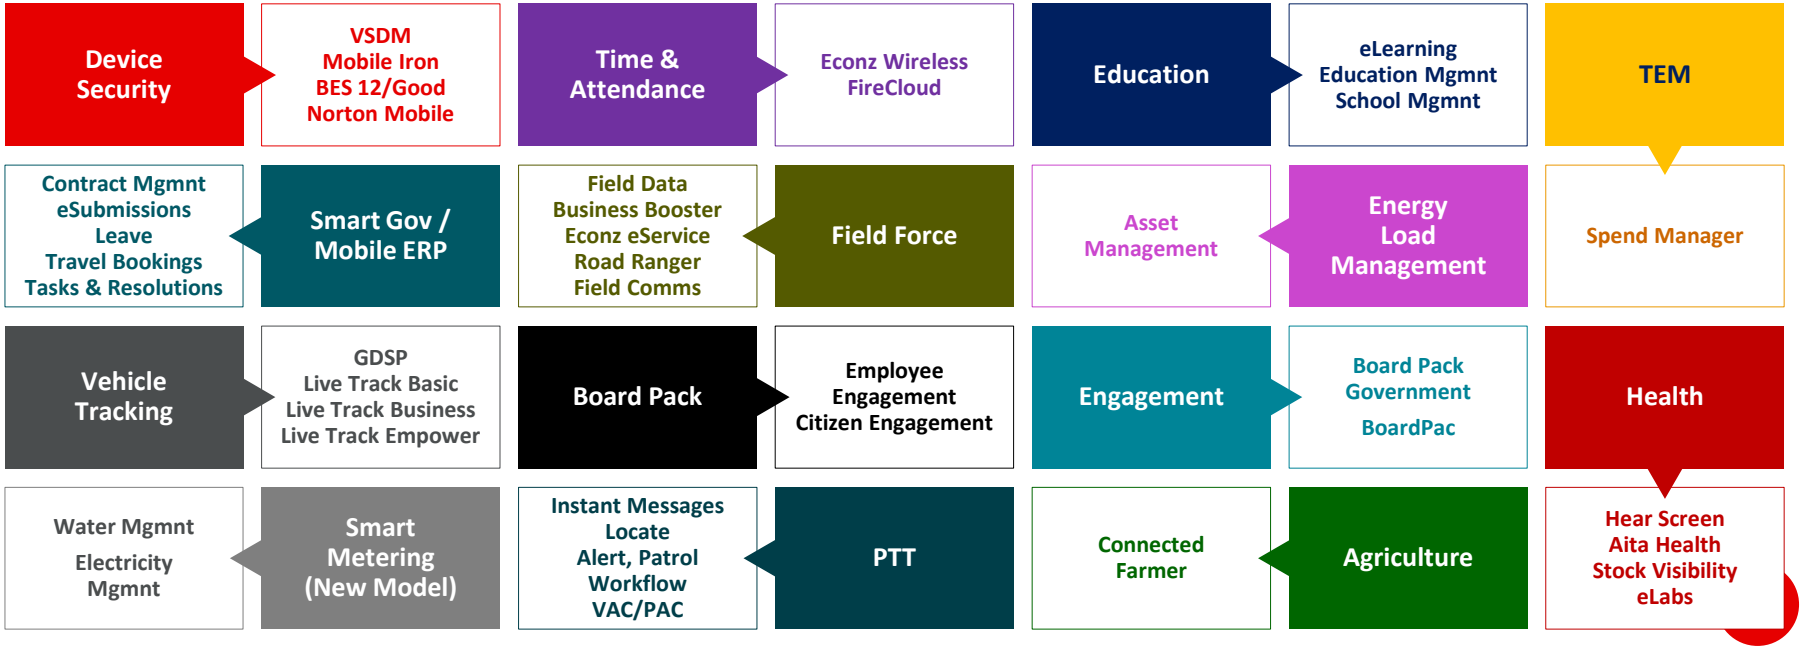
Big hits: near term
Invent Developer Community; NB-IoT Adoption; IoT Marketplace

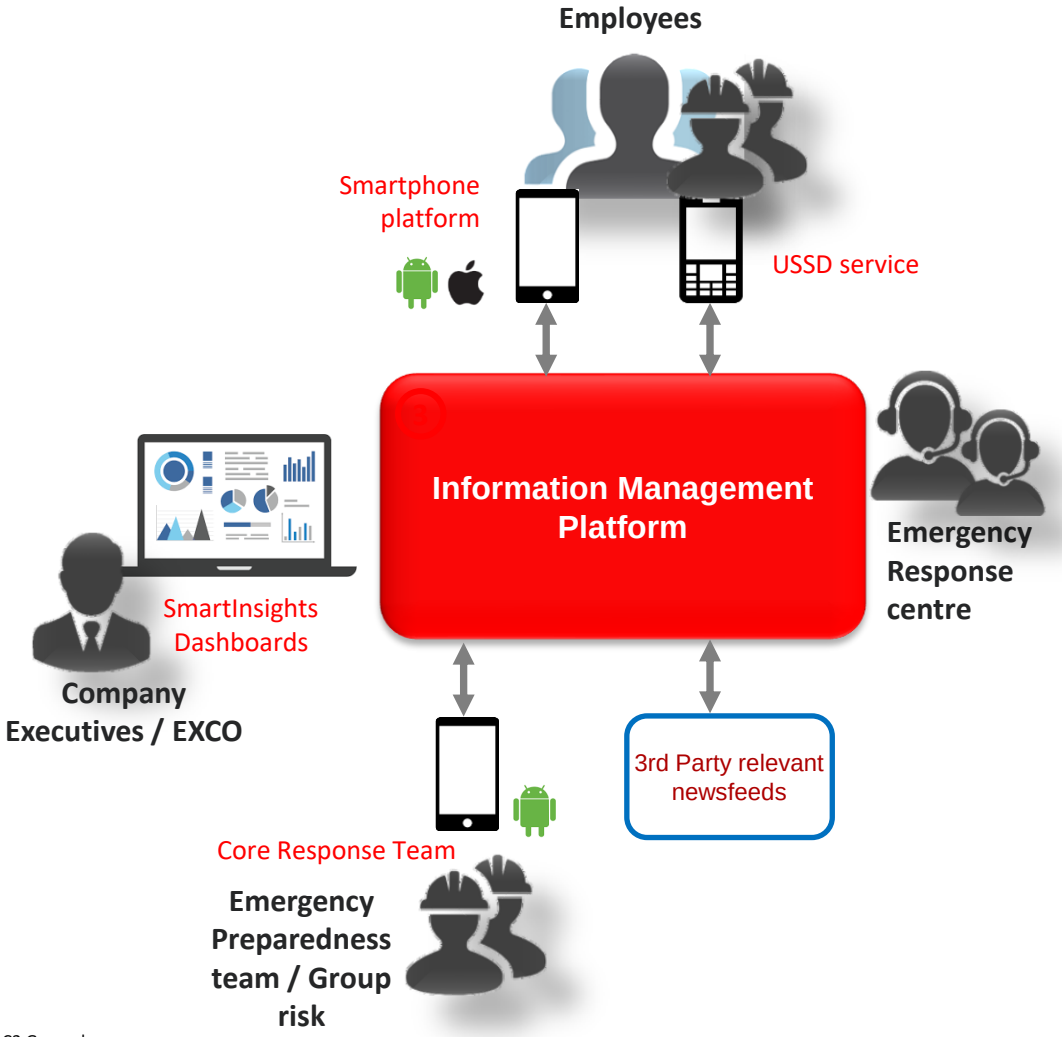
Connectivity vs Services

	Connectivity	Services
Corporate	1 Scale the platform across all verticals	2 Build depth in industry verticals
SME		3 Roll-out solutions for SMEs

Accelerating Digital Engagement

- Digitised administrative & paper processes
- Integrated with legacy systems (BAS, Persal)
- Secure & managed mobile devices
- Managed & tracked mobile spend
- Audit compliance for Asset Management
- Automated Attendance Register
- Integrated Digital School incident reporting
- Digitised & facilitated Online Form capturing
- Digital Meeting Packs & Resolution tracking
- Contract management & reporting
- Enabled citizens able to engage Government entity/-ies
- Tracking & visibility of vehicles
- Smart Water & Electricity Metering
- Stock visibility – proactive inventory & SCM





Notifications

The platform will allow the company to broadcast public or targeted notifications.

- Notifications may consist of a simple message and optional attachments (e.g. image, pdf file).
- Companies can target messages based on preloaded user profiles.
- Recipients of the broadcast can respond in through the platform and the responses appropriately curated

Contacts Directory

Users can search for and view details of various useful contacts such as Organization's directory, Emergency Services, Call centres, and other useful numbers.

Content Libraries

Users can view and download various useful documents and other rich media types such as images, audio and video

Social Media

The platform can be used to view Twitter and other Social Media feeds.

Reporting

The platform allows for incident reporting as well as unique tracking of the report to closure

Why Vodacom

Rapid digitization

Intelligent filtering of data at the edge

Real-time in-shift optimization of operations

Integration of analog and digital, legacy and new devices

Quick Implementation with no disruption, retrofitting our technology to create interoperability between new and legacy infrastructure and equipment

Consolidation of processes and data

Remote monitoring and management of businesses

Shopping Malls

Factories

Education

Supermarkets

Gyms

Warehouses

Call Centres

Healthcare

Corporate Offices

Farms

Prisons

Mining
